Introduction

Of all the possible models to fold, mammals are among my favorites. Here is a collection of a dozen mammals ranging in skill level from intermediate to high-intermediate.

The diagrams follow the internationally approved Randlett-Yoshizawa style, which is easy to follow once you have learned the basic folds. You can use any kind of square paper for these models, but the best results and most precise folding can be achieved using standard origami paper, which is colored on one side and white on the other. In these diagrams, the shading represents the colored side. Origami paper can be found in many hobby shops or purchased by mail from Origami USA, a non-profit organization of dedicated paperfolders. For more information about the group, send a self-addressed, business-size envelope with two first-class stamps to:

Origami USA

Origami paper, and a catalog of other available craft books, can also be ordered from Dover Publications, Inc., at:

I hope you enjoy folding these as much as I did creating them.

Basic Folds

Rabbit Ear.

To fold a rabbit ear, one corner is folded in half and laid down to a side.

Fold a rabbit ear.

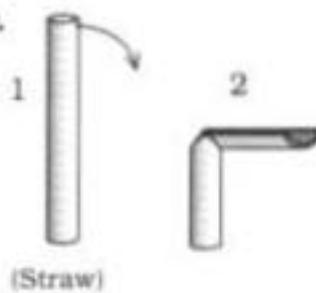

A three-dimensional intermediate step.

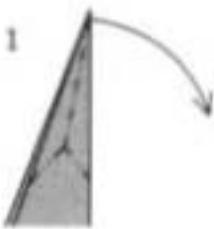

Double Rabbit Ear.

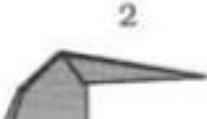

If you were to bend a straw you would be folding the double rabbit ear.

(Straw)

Make a double rabbit ear.

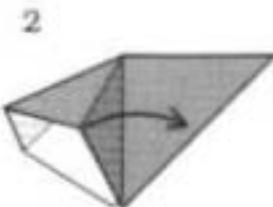

Squash Fold.

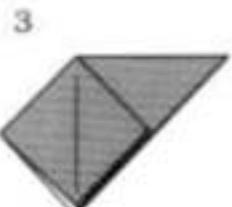

In a squash fold, some paper is opened and then made flat. The shaded arrow shows where to place your finger.

Squash-fold.

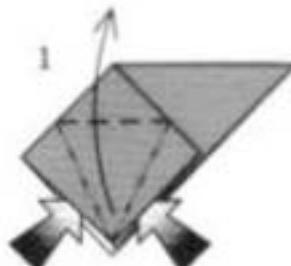

A three-dimensional intermediate step.

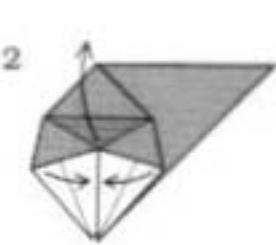

Petal Fold.

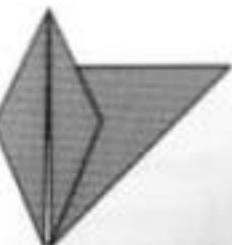

In a petal fold, one point is folded up while two opposite sides meet each other.

Petal-fold.

A three-dimensional intermediate step.

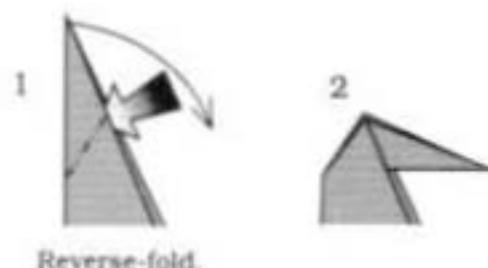

Inside Reverse Fold.

In an inside reverse fold, some paper is folded between layers. Here are two examples.

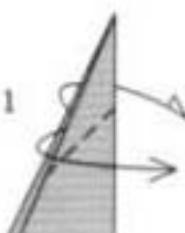

Reverse-fold.

Outside Reverse Fold.

Much of the paper must be unfolded to make an outside reverse fold.

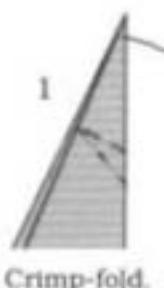

Outside-reverse-fold.

Crimp Fold.

A crimp fold is a combination of two reverse folds.

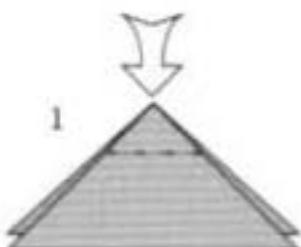

Crimp-fold.

Sink Fold.

In a sink fold, some of the paper without edges is folded inside. To do this fold, much of the model must be unfolded.
